

## COMPANIES

Proselect Funding provides funding and business management solutions for professional athletes, entertainers and celebrities, secured by the guaranteed portion of their contracts.

Koru specializes in equipment leasing and financing for green and alternative energy, telecom and management services as well as other solutions for companies wherein the assets and the customer payment streams provide the basis for the lease.

Merlion Capital Group invests in long-lived assets with highly predictable reoccurring cash flows such as transportation containers, beer kegs, resource & infrastructure and telecom.

Alliance provides middle market and growth capital financing, typically utilizing the existing assets of an enterprise, including those, which may be acquired.

Unique Specialty  
Finance Solutions

Transitional Capital Management (TCM) provides an array of specialty finance solutions to borrowers and investment partners through its affiliate companies each specializing in unique investment platforms specializing in long-lived assets.

## Tailored Financing Solutions

TCM leveres a 35 year investment track record and over ten years of specific transaction experience focused on its select investment silos.

Through its affiliates, TCM is able to provide financing solutions in green energy equipment leasing; telecom infrastructure and contract based lending business services for celebrities, entertainers and athletes.

Each of our platform funding vehicles operates independently from one another. We can provide a variety of lending and investment solutions for an array of complex opportunities.

Because the TCM family of financing platforms is controlled by one entity, we can create a cohesive and collaborative suite of financing solutions for our clients and partners.
